

We are all spokes of one wheel, moving in the same direction, arriving together at the same destination

Mālama Pu'ūloa - Impossible is where we start

Who We Are: Hui O Ho'ohonua (HOH808), is a community development 501c.(3) non-profit networking organization that strives to serve as a centralized hub that will initiate, administer, operate, and maintain a network connecting all levels of the community to accomplish sustainable community development programs.

Program Vision: We believe the need, resources and desire to restore Pu'ūloa (Pearl Harbor and the surrounding Ewa Moku) now exist and we seek to build a coalition specifically focused on the overarching goal to implement projects that enhance biological and cultural functions of the region. Specific goals of this initiative include:

- Restoration of Pu'ūloa and the lands surrounding Pu'ūloa to once again provide food for the community as they were historically 'āina momona (abundant land). This includes the restoration of lo'i (taro) and fishponds (fisheries) as well as land-based, sustainable community food systems (gardens). This goal also includes addressing existing hazards to human health caused by pollution over the last 100 years. Restoring Pu'ūloa will greatly enhance the ability of Oahu to sustain itself in case of a global emergency.
- Restoration of Kapapapuhi Point Park (formerly West Loch Shoreline Park) and its wahi pana (sacred sites). This includes the park's entire shoreline and the three Apokeo fishponds. These sites will be used to educate the community of the cultural importance of the fishponds and the wahi pana, as well as the impact that their restoration will have on future generations.
- Development of a holistic approach to restoration and management that utilizes a ridge-reef perspective as well as the incorporation of best practices in modern watershed restoration and indigenous ahupua'a management. We seek to connect current initiatives and managing agencies with those that are needed to bring about our restoration goals.

- Development of a multi-generational approach to community involvement that honors both the host Hawaiian culture as it nurtures the existing multi-cultural communities that border Pu'uloa.
- Development of educational and career pathways for conservation, social services, food systems, eco-tourism and public policy. These initiatives will include public and private schools, the state university system and targeted public-private cooperatives. This framework will support the development of both indigenous and modern technologies needed to address the challenges facing the region.
- Implementation of a collaborative approach with current sustainability initiatives addressing transportation, energy, and Homeland Security.

We have already begun the work of building the coalition needed to accomplish our vision. It includes:

Anthony Chance, Founder and CEO of HOH808 and Retired Navy Senior Chief Petty Officer
 Sandy Webb, Educator and Conservation Coordinator, Mililani High School
 Auli'i Silva, LCC Native Hawaiian Student Support Coordinator
 Dr. Manulani Aluli Meyer- UHWO Director of Indigenous Education
 Jeffrey Pantaleo, Naval Facilities Engineering Command (NAVFAC) Hawaii Archeologist
 Victor Flint, Naval Facilities Engineering Command (NAVFAC) Hawaii, Community Planning
 Ati Jeffers-Fabro, State of Hawaii Division of Forestry and Wildlife
 Jordan Muratsuchi, State Leader Keep the Hawaiian Islands Beautiful
 Miwa Tamanaha, Deputy Director of KUA – Kua 'āina 'ulu auamo, Community Organizing Non-Profit
 Sherri Tenn, Waipahu High School Natural Resources Program
 Will Weaver, Natural Resource Manager, Ko'olau Mountain Watershed Partnership
 Shad Kane, Cultural Consultant, State of Hawaii
 Mike Rompel, owner Bay Pizza Inc. and Domino's Franchisee
 Sen. Mike Gabbard, Hawaii State Legislator
 Ron Menor, City Councilmember
 Rep. Ty Cullen, Hawaii State Legislator

Project Advisor:

Dr. Ken Kaneshiro, Hawaii Conservation Alliance and Director of the Center for Conservation Research and Training at University of Hawaii, Manoa

Project Milestones:

- 501c.(3) status and non-profit structure developed in 2015-16.
- Community Pu'uloa bike path clean up event, April 2016.
- Collaboration with community efforts to restore Loko Pa'aiau Fishpond, September 2016.
- Pre-proposal accepted for a Hawaii Fish Habitat Partnership grant, October 2016.
- Collaboration with community efforts to restore the Kalauao La'au (Ka'onohi lo'i), November 2016.
- Conducting a meta-study of existing research and planning initiatives for the Pu'uloa region, September 2016-present.

- Developed partnership, funding and community involvement to address restoration needs at Pouhala Marsh Wildlife Sanctuary, October 2016-present. This has to date, included 5 restoration efforts, totaling of 160 volunteers.
- Received \$5,000.00 Keep America Beautiful Community Trails Grant.
- Adopted Kapapahu Point Park, Ewa Beach.
- Kahu Quintero Blessed Kapapahu Point Park 5 Aug 2017
- Initiated in 2017 House Resolution 72 and City Council Resolution 17-230 to rename West Loch Shoreline Park to its original name of Kapapahu Point.
- City Council officially adopted the name change of West Loch Shoreline Park to Kapapahu Point Park on 11 October 2017
- Received Hawaii State Senate commendation letter from Sen. Mike Gabbard on becoming the new stewards of Kapapahu Point.
- Approved calendar of work days. scheduled to restore Kapapahu Point Park (formerly West Loch Shoreline Park)

Next Steps:

- Strengthen our agency infrastructure.
- Kupuna teaching keiki's through storytime in the park.
- Pohai Ke Aloha- "Encircle with Love", Hands around Pu'uloa.
- Restoration of a lo'i in behind Waipahu Intermediate School in the Waikele Watershed.
- Restoration of the Pouhala Fishpond in West Loch.
- Restoration of 39 acre Kapapahu Point Park 3 Apoeko fishponds, shoreline, and wahi pana.
- Develop Waikakalaua Stream riparian zone restoration project on Wheeler Army Air Base in cooperation with Mililani High School.
- Continue seeking coalition partners and develop communication pathways for stakeholders.
- Collaborate with the Hawaii Exemplary State Foundation and utilize community development tools they have developed in the Ala Wai Watershed.
- Consult with the Hawaii Land Trust to assist with permitting and project development.
