## Message from Councilmember Ron Menor

We are all being affected by the daily changes to our ways of living necessitated by our collective desire to be safe from an invisible virus that has wreaked havoc around the globe. What began in Hawaii as a 9-1-1 call to stop the introduction of this virus to our shores by infected travelers has now progressed to an image of a long dark tunnel with daylight that we envision yet cannot see.

It is hard to know how deep into this tunnel we now are. Paraphrasing the great leader Winston Churchill, are we at the end of the beginning? Are we at the beginning of the end? And, when we get to the end how will it compare to the way things were before?

As your Councilmember, I am doing things to help us in this journey and to ensure that we all emerge safely on the other side. I have called upon Governor Ige and others to order an increase in necessary testing and tracing to discover those who may be infected, to implement scientifically-based best practices to keep essential businesses and their customers safe, to stop the flow of possibly infected visitors to Hawaii, and to call for a moratorium on the eviction of tenants unable to pay their rent due to this emergency. After the Council adopted the resolutions I introduced, Governor Ige issued his 5<sup>th</sup> Proclamation ordering additional safety requirements for essential businesses and imposing a moratorium on residential evictions as a matter of law.

I will do all I can and will continue to provide you with the best information to help in our journey towards the light. We are all 'ohana and are in this together.

Mahalo,

Ron
